II. Entry Requirements

All rules and regulations indicated in this brochure regarding the qualifications for Overseas compatriot, Hong Kong, and Macau students who intent to apply for admission to THU are subject to the "Regulations Regarding Study and Counseling Assistance for Overseas Compatriot Students in Taiwan" and "Regulations Regarding Hong Kong and Macau Students Undertaking Studies in Taiwan" administered by Ministry of Education (MOE) of R.O.C. Should there be any future revisions made in the regulations, the latest regulations announced by MOE shall prevail. Website: http://www.edu.tw/

1. Identification Documents

Applicants are limited only to those who return to Taiwan from abroad in the current year (exclusive of those who have studied in senior high schools in Taiwan; those who have studied for one year in a domestic university; and the overseas compatriot, Hong Kong, and Macau students who have been certified by the Division of Preparatory Programs for Overseas Compatriot Students of National Taiwan Normal University).

(1) "**Overseas Compatriot Students**" refers to students of Chinese descent who have been living abroad since birth until the present time, or who have been living overseas for at least six consecutive years in the immediate past and have obtained permanent or long-term residency status overseas.

(2) "**Hong Kong and Macau Students**" refers to students 1) who have permanent residency of Hong Kong or Macau; and 2) who have been living overseas for at least six consecutive years in the immediate past; and 3) who, according to Article 4 of Laws and Regulations Regarding Hong Kong & Macao Affairs, do not have any other foreign passports.

(3) "**Hong Kong and Macau Chinese Students with Foreign Nationality**" refers to overseas compatriot students with foreign nationalities, possessing permanent residency of Hong Kong or Macau and have been living there for at least six consecutive years in the immediate past—without a household registration in Taiwan; before related laws are amended and enacted, the counseling assistance for the aforementioned students is conducted according to the "Regulations Regarding Study and Counseling Assistance for Overseas Compatriot Students in Taiwan" when they apply for university admission.

Note. 1. Documentary evidence of having obtained permanent or long-term residency status overseas referred to proof of having citizenship or permanent residency in the applicant's country of residence, or having a Republic of China passport which officially records the person's overseas compatriot status.

Note. 2. In Article 4 of "Laws and Regulations Regarding Hong Kong & Macao Affairs," the term "Hong Kong Residents" as used herein refers to persons who qualify for permanent residency in Hong Kong and who do not hold a travel document other than a British (Overseas) passport or a Hong Kong passport. The term "Macau Residents" as used herein refers to those who have the right of permanent residency in Macau and hold no travel documents other than the Macau passport with the exception of a Portuguese passport obtained prior to the end of Portuguese rule in Macau.

Note. 3. The term "abroad" refers to countries or regions other than Taiwan; "overseas" refers to countries or regions other than mainland China, Hong Kong and Macau.

Note. 4. The term "consecutive years of overseas residency" includes calendar years in each of which a Hong Kong, Macau, or overseas compatriot student has not spent more than 120 days in Taiwan. The standard way to calculate the period of continuous overseas residency is to trace back to the preceding 6 years from the final date for admission application stated in this admission brochure. **A grace period** of extension, however, can be set on August 31, 2027 as the counting backward date for the six required years of continuous residency. Continuous overseas residency **could include** the time that a person has spent in Taiwan when the following cases occur (please provide proof)—if a student:

(1) attended an overseas youth technical training course conducted by the OCAC or a technical professional training program accredited by an authorized educational administration authority;

(2) attended an activity held by the OCAC or by a government agency recognized by the OCAC; or has taken a Chinese language course (not exceeding a total period of two years) provided by a Chinese language education institute approved by the governing authority to recruit overseas students;

(3) spent a total period of less than two years in Taiwan as an exchange student;

(4) spent a total period of less than two years for an internship in Taiwan under the approval of the designated national authority;

(5) returned to Taiwan for military service;

(6) stayed in Taiwan because of war, natural disaster, or a major outbreak of an infectious disease; or

(7) stayed in Taiwan because of matters that the student was not responsible for and with documents of proof.

Note. 5. The aforementioned citizenship and permanent residency documentation must include proof of citizenship from the applicant's country of residence, proof of permanent residency, or a Taiwanese passport with a valid overseas status.

Note. 6. Overseas Compatriot Students who have been studying at a Taiwan university for less than two year and have discontinued their studies in order to return to their countries of origin, must repeat the application process; only one such reapplication is permitted. However, *this does not apply to those* who were once enrolled in, dropped out from, or expelled from domestic universities or colleges (including the Division of Preparatory Programs for Overseas Compatriot Students in National Taiwan Normal University) and those who have had the record of applying for admission postponement. If violations of this regulation are found and verified, the admission qualification will be voided.

Note. 7. During the course of study, Hong Kong, Macau, and Overseas Compatriot Students may not change their student status, unless otherwise permitted by other regulatory functions.

Note. 8. For those who are eligible to apply as both international students and overseas compatriot students, please choose only one identity to apply. Once the application is submitted, no changes of identity will be allowed.

Note. 9. The above admission regulations do not include overseas compatriot students who graduated from unincorporated Chinese schools in Myanmar and Northern Thailand.

2. Academic Credentials

(1) Certificated graduates from foreign/overseas compatriot high schools, high schools taught in foreign languages, or schools with a status equivalent to domestic high schools may apply (all such must include an enrollment certificate) **and verified by the Republic of China's overseas missions or the Overseas Community Affairs Council.**

(2) Students can apply with a high school equivalency certificate if they: 1) attended a school in a foreign country, Hong Kong, or Macao of a comparable academic level and nature to senior high schools in Taiwan, but which requires more years of study, or 2) if they, though graduated from their secondary studies there, yet the graduating year is only equivalent to the 11th grade of a senior high school program in Taiwan. More details are listed as the following:

A. The student completed all but the final year due to an application for a suspension or withdrawal, or if they had resumed study above the 2nd year of a senior high school.

B. The student completed the first semester of the final year of the prescribed program but for some reason suspended or withdrew for one year or more.

C. The student completed the prescribed program but for some reason was unable to graduate.

The number of years for suspension, withdrawal, or resumption of schooling count from the end-date of the last semester that the student completed, as recorded in the transcript of all finished academic years, the certificate of enrollment, or the certificate of withdrawal, until the ending date of registration in which the entrance

examination takes place.

(3) Applicant shall obtain an equivalent education level to meet the qualification of the regulation of "Standards for Recognition of Equivalent Educational Levels for University Admission" by the MOE.

(4) Applicants to which the following cases apply will be disqualified for admission or expelled and deprived of student status if already enrolled:

A. Who have not yet acquired foreign nationalities after application for cancellation of R.O.C nationality with approval.

B. Whose applications or passports have been forged, altered, fabricated, and hence fraudulent, inaccurate, or otherwise lacking legal validity.

C. Whose qualifications have been verified by OCAC or MOE to be ineligible after admission.

Note 1. Graduating applicants should provide a "Certificate of Expected Graduation" or proof of current enrollment. Once accepted, however, official diploma is required to avoid cancellation of admission.

Note 2. An applicant (from a high school in Hong Kong, Macao or other areas), whose graduating year is equivalent to the sophomore year of a senior high school in Taiwan (please refer to Form 5 for senior high finishing at the 11th grade), is eligible to apply for the undergraduate program. However, the student will have to take an extra 12 credits to satisfy the graduation requirement according to "Tunghai University Academic Regulations."

Any confirmed violation of the above will lead to cancellation of admission, expulsion from school and diploma revocation. THU will not issue any proof of academic credentials at any stage.
